Arcoprint

Arcoprint

uncoated text & cover

Arcoprint Text & Cover

features & benefits

Arcoprint is one of Europe's foremost ranges of uncoated text and cover products.

- premium matching paper and board from 100gsm to 350gsm
- proven outstanding ink drying properties
- excellent on-press performance
- exceptional look through and clarity
- archival/long-life certified to ISO 9706
- FSC certified

application

- Arcoprint is perfect for de-luxe publications requiring high resolution reproduction from an uncoated surface.
- the board range provides the ideal solution for those seeking a quality positioned between traditional ivory boards and conventional pulpboards.
- Arcoprint has a unique micro-porous surface to accelerate ink drying and minimise dot gain.
- the board weights have an excellent reputation within the European greetings card market.
- Arcoprint is especially suited to blind embossing, hot foil stamping, cutting, creasing and folding.
- certified to the long-life standard ISO 9706, Arcoprint is the perfect choice where archival applications are intended.
- the 100gsm paper is the Arcolaser quality and is fully laser guaranteed.

technical information

Grammage	100*	120	140	170	200	250	300	350	400
Microns	125	150	175	212	250	312	375	437	495
